Rodrigo Sebastián Palacio Schunke

Data & Systems Analyst | C#/.NET | Business Intelligence

Córdoba, Argentina | rodripalacio14@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience in data and Business Intelligence, with a technical foundation in SQL, Oracle, Power BI and Azure Databricks. I currently work on ERP implementation, functional analysis, incident resolution and PL/SQL. I complement this experience with formal training in Systems Analysis and hands-on development projects using C#, .NET/WinForms, PostgreSQL/Supabase and REST APIs.

TECHNICAL SKILLS

Development: C# · .NET · WinForms · REST APIs · JSON · Git · JavaScript
Databases & Systems: SQL · Oracle · PL/SQL · PostgreSQL · Supabase · ERP · Functional Analysis · Testing & Validation
Data & BI: Power BI · DAX · Azure Databricks · Oracle Data Warehouse · Looker · Data Modeling · ETL · KPIs
Web & Platforms: HTML · CSS · Bootstrap · React (practical experience) · Dataverse · Dynamics 365

PROFESSIONAL EXPERIENCE

BIT S.A. | ERP Implementer | Apr 2026 - Present

- Implement and support ERP modules for administrative, accounting and operational processes, performing functional analysis, testing, validations and go-live support.
- Analyze and resolve Oracle-related incidents using SQL and PL/SQL, coordinating validations and adjustments with development teams.
- Work across business processes by combining functional configuration, data analysis and technical user support.

Dirección General de Rentas de Córdoba | Data Analyst | Feb 2022 - Mar 2026

- Developed analytics and reporting solutions with Power BI, Looker, SQL, DAX and data modeling for administrative, financial and operational teams.
- Worked with Oracle Data Warehouse, Azure Databricks, Dataverse and Dynamics 365 to integrate, transform and analyze large volumes of data.
- Automated reporting and validation processes with SQL, reducing manual tasks and operational processing time by more than 50%.
- Optimized a financial validation process, reducing its cycle from monthly to approximately one week.

Telemercado S.R.L. - Dirección General de Rentas | Administrative Support / Citizen Services | 2018 - 2022

- Handled tax-related administrative inquiries, operational support and incident resolution.

TECHNICAL PROJECTS

- **Management System - C#/.NET + Supabase:** Developed an application using C#, .NET/WinForms and Supabase/PostgreSQL for data management and REST API/JSON integration.
- **Níspero Tech - Multi-company Platform:** Development of a functional multi-company web platform using Supabase/PostgreSQL and API integrations.
- **Tax DataMart - Azure Databricks:** Built an analytical tax data layer using Azure Databricks, SQL and Delta processing over large volumes of data.
